SUMMARY

Full-stack engineer shipping production web and mobile products in TypeScript since 2023, from first requirement to store release. Main developer of Fiber Home's field-operations platform. Built the company app for Gübelin (Swiss jeweller), Oxenta's employee app and Fajnd, a food-delivery app with 10,000+ downloads. Works daily with Claude Code agents, under strict typing, tests and code review.

SKILLS

Frontend: TypeScript, React, Next.js (App Router), Tailwind CSS, shadcn/ui, Storybook
Mobile: React Native, Expo (SDK 54–58), expo-router, EAS, Reanimated, FlashList, offline sync
Backend: Node.js, NestJS, REST, GraphQL, PostgreSQL, Prisma, Zod, authentication and sessions
Quality: Vitest, Jest, Testing Library, Playwright, Maestro, axe-core, GitHub Actions, Docker
Platforms and AI: Vercel, Railway, Firebase, Claude Code, technical SEO

EXPERIENCE

Tetbit LLC · Full-Stack Engineer

May 2024 – Present

Client platforms in Switzerland and Kosovo: web (Next.js) and mobile (Expo) on GraphQL and REST APIs

- Led web and mobile architecture for client products, from requirements to release.
- Designed and shipped a 30+ component Storybook design system for client web apps.
- Sped up Next.js page loads (FCP, TTI) with code-splitting, image optimization and caching.
- Built CI/CD with GitHub Actions, Docker and Expo EAS, taking releases from days to under 2 hours.

Selected client work, delivered through Tetbit (client code is private)

Gübelin · company mobile app for a Swiss jeweller

Sep 2026 – Present

gubelin.com · iOS and Android

- Built the app on Expo SDK 58 as a host for modules. The first, a shared vault for passwords, cards and notes, works offline once synced.
- Built portal sign-in with a revocable session per device and an emailed code at every sign-in.
- Shipped 1.0 and 1.1 to production; also worked on the portal, web client and server.

`Expo · React Native · TypeScript · expo-router · EAS`

Fiber Home · field-operations platform for a Swiss fibre-optic installer

Aug 2026 – Present

fiberhome.ch · main developer

- Built the Next.js back office, a Node.js and Prisma API (76 models) and the Expo crew app.
- Shipped attendance, time off and site plans on web and mobile, with offline use in the crew app.
- Covered the API, web and mobile apps with Vitest, Jest and Maestro tests.

`Next.js 16 · Tailwind CSS · shadcn/ui · PostgreSQL · Prisma · Expo SDK 58 · Turborepo`

Selected client work, delivered through Tetbit (continued)

Oxenta · attendance, leave, tasks and invoicing for teams

Jun 2026 – Present

oxenta.ch · Swiss SaaS · employee app on the App Store

- Built the employee mobile app on my own, from sign-in to release on the App Store.
- Largest contributor to the Next.js web app, admin and API on PostgreSQL with Prisma.

`Next.js · Expo SDK 58 · TypeScript · PostgreSQL · Prisma · Turborepo`

Two Jobs & my.two.jobs · job platform and recruiting SaaS

Sep 2025 – Present

two.jobs · my.two.jobs

- Migrated the production job platform from the Next.js Pages Router to the App Router: routing, nested layouts and server-side data fetching.
- Full-stack work on my.two.jobs, the HR and recruiting SaaS that posts vacancies to 20+ job boards.
- Delivered a technical SEO overhaul (sitemaps, Open Graph, JobPosting schema) and fixed indexing.
- Shared UI across the web and Expo apps; upgraded mobile to Expo SDK 54 with expo-router.

`Next.js (App Router) · TypeScript · React · Expo · Storybook · schema.org`

Fajnd · food-delivery app

Mar 2025 – Present

fajnd.app · 10,000+ downloads on iOS and Android · #1 in Food & Drink in Kosovo

- Built the app from scratch on Expo: themed component library, hardened refresh-token sessions.
- Automated signed builds and App Store and Google Play submission with EAS and GitHub Actions.
- Kept long restaurant and product lists fast with FlashList virtualization and lazy loading.

`Expo · React Native · TypeScript · FlashList · Reanimated · EAS`

Pro Real Estate · real-estate platform and CRM

Dec 2024 – Sep 2025

pro-rks.com

- Rebuilt the CRM data table on cursor-based pagination, ending UI freezes on large datasets.
- Added multilingual routing with next-intl and server rendering, and fixed SEO and indexing issues.

Independent Consultant · Full-Stack Engineer

Mar 2023 – May 2024

- Delivered web and mobile apps for startup clients with React, Next.js, Expo and TypeScript, on Node.js (NestJS) and Prisma back ends with authentication, dashboards and GraphQL.
- Deployed and ran environments on Vercel, Railway, Firebase and Docker hosts, with analytics and monitoring.

OWN PRODUCTS

Built alone in one TypeScript monorepo, working with Claude Code agents

- **Whenbird** (whenbird.com): booking SaaS with roles, availability rules, public booking pages and five languages; a PostgreSQL exclusion constraint blocks double bookings. Next.js 16, Prisma, Zod, Tailwind CSS; tested with Vitest, Testing Library, Playwright and axe-core.
- **Kujdo** (kujdo.com): clinic booking for Kosovo, with a patient directory, a clinic console, an API and an Expo app, in Albanian and English. Next.js 16, Expo SDK 57.

LANGUAGES

Albanian (native) · English (fluent) · German (basic)
